Abstract

Presenting the current status of www.syrphidae.com. A central Syrphidae hub with world coverage. 1000's of new natural photos, almost all literature from 1758 till now and searchable, all published Syrphidae names and their synonymy. A new Social platform (forum, members, symposia?, etc). What has been done, what needs to be done and what would we like to have in the future?

Keywords: Syrphidae
